Customer Reviews

My Daughter wanted to buy this book for my husbands birthday. He is the Service Manager at the

local motorcycle dealer in town. My husband and the owner of the store were astounded by the details of not just the bikes in general, but in which the drawings portrayed for each particular make of bike. My husband very much liked the idea of the briefs under the drawing about the particular bike displayed. Infact my husband likes this book so much he is keeping it as a collectors item. He made perfectly clear that he had no intentions of making one mark in such a beautiful work of art. Thankyou so much for such a wonderful gift for a very special person. Sincerely, Eileen A. Gave as a gift to a friend who rides a Harley and has recently started getting into coloring. I'm so surprised at how many reviews are written by men and how many coloring books are designed for them. It's a good thing, because they need to be de-stressed, relax and all the other great things coloring books so for us.

This book was bought for our grandson (4 yrs old) who happens to be focused on motorcycles. So far, from all indications he does like looking at it and say he likes the book. This was one of three we bought for part of his birthday present. I would buy it again.

I got this for my brother and he absolutely loves it. Not only are the artist's renderings of the motorcycles done extremely well, there is a bit of history about the motorcycle depicted in each picture. Mr. LaFontaine does excellent work. I am hoping he will do one on just Harleys alone one day as this is a group (of which my brother is one) with a huge following.

My son loves this book which he got from his grandpa for Christmas. He is 5 and autistic and LOVES motorcycles. This keeps him engaged for at least an hour. I now need to purchase another one because he has colored his first one already. I do wish the writing was bigger and a little easier to read to younger children, but otherwise a great coloring book for those kids who love motorcycles.

This book exceeded expectations. Illustrations were awesome, interesting book to read. Would highly recommend.

My nephew was very happy to receive this for part of his birthday present. It helps me start getting him interested in motorycles, while giving him something fun to color.

My grandson loves this coloring book. He loves motorcycles and really enjoys coloring so, it is perfect for him.loopysoozy
