Customer Reviews

I enjoyed reading this book. The subject of death of money is fascinating. Edward Rickards does a great job explaining how this collapse could happen. The book is divided in two main part. The first one explain all the events that could lead to an economic melt down and the second one deals with how to survive such an event. I really appreciated the chapters on what you need to start stockpiling now and what skills to develop so you can survive the collapse if it happens. There is also a section on barter which was very informative.

How to survive in the modern world without money. It seems to me that it is not possible. But in this book there are practical tips on how to survive an economic collapse. I read her hollow and now I know that this is possible. Read it too and will know all about how to survive the crisis.

Very interesting book! The problem of the economic crisis is always current, so it is best to know how to behave if it happens. Through this book, I learned a lot of useful information, and now I'll know how to make money now in case the dollar collapses. Thanks to the author for his valuable advice.

Awesome! This book has explained perfectly what's happening with money today. Which are only facts and might happen in the future. It has explained what we should do in times of trouble, so basically this book is eye opener and very helpful. I recommend this one to everyone. Worth reading!

In my opinion there is no much time when the economic collapse will ahead of us and when it does and it hits hard, you need to be prepared for it and face with certainty and bravery. That's where this book helps and it does it in great fashion. There is so much advice and it seems that the author is well prepared if a period like that thrills in. You should be arranged also if you read this book.

For people who want to save money, there are good tips for you here. However I think these are just basic tips, but I think it will be very helpful for beginners. And will be a good refresher for those who forgot these tips.

The first book *The Death of Money* is a very vital and very important book. Economic collapse is always lingering on the very edge, and one day, sooner or later, it's going to fall and we will all feel the repercussions of it, and when that day happens, it's best to be prepared for it, and this guide is the starting point to learn the basics and beginning of preparing for the day when economic Armageddon befalls us all and it will be a dog eat dog world out there, full of chaos and disorder as everyone fights everyone over everything they can get their hands on, survival of the fittest will become the order of life. So instead of being in the crowd, killing others for goods, you can be ahead of the curb and have everything you could ever need to manage in the crisis and wait it out until it hopefully blows over and the economy returns. It's not perfect, and it could have used some more depth, but it's a handy and helpful start to know and gather the basic essentials one really needs in surviving an economic disaster. The second book *Debt Free* is a useful and helpful book on how to prevent yourself from ever having to get into the red and end up being in debt, it gives you handy advice on using your money wisely, which is deeply important, our resources are not unlimited, it has to be invested correctly and used sparingly. Both are great and essential books with

understanding the true value of money and how to manage it, to ensure you survive economic collapse and debt.

Our life depends on several factors, such as your current income, the industry you work in, and what country you're currently living in. Better to be educated about the currency war and what it means to us. The book gives you the idea for your plan and educate you about the currency war. The book teaches how to survive. Getting out of debt is a difficult endeavor. Better to learn how to stay out of it. Every time you want to buy something you get a loan. How to live without debt? How to breathe easier? How to save money? The book is perfect for those who want to change the life and live a happy life without debts.
