Think And Grow Rich For Women: Using Your Power To Create Success And Significance

Synopsis

Women are the future of American business. According to a recent Nielsen report, women will control two-thirds of American consumer wealth in less than a decade. And yet almost all business and success literature is still written for men - dispensing advice that doesn't take into account women's unique strengths or address the demands of family life on mothers. This powerful new audiobook - from the award-winning author of *Think and Grow Rich: Three Feet from Gold* and coauthor of the multimillion-selling *Rich Dad, Poor Dad* - combines Hill's classic *Thirteen Steps to Success* with case studies of noteworthy women (including Sandra Day O'Connor, Angela Merkel, Mary Kay founder Mary Kay Ash, and IBM CEO Ginni Rometty), outlining a master plan for success for all women.

Customer Reviews

I really love Sharon Lechter's version of *Think and Grow Rich for Women*. She has done a brilliant job of connecting the principals in the book to the heart, the lack of which I struggled with in the original form. But her use of Napoleon Hill's original text wrapped with modern examples of women who have implemented the principals was very powerful for me and I've walked away with a greater understanding and connection to this incredible work.

I like the way Ms. Lechter shares so many insightful views. I have several copies and workbooks of the original *Think & Grow Rich*. I do not subscribe to women being very different to men in their lives.

But I do feel women take on more responsibilities (through social programming) and less focus on ONE area of expertise than men generally do. To me, as humans, we have many diverse experiences and opportunities. Being able to study the different pathways to success that Ms. Lechter offers, is most helpful. It gives me confidence to be my own person, remaining faithful to my values and my unique "journey".

Women who are seeking to take charge or revitalize their life will greatly benefit by the usage of Sharon's Think and Grow Rich insights, techniques and stories that can bring transformational solutions and ideas for any aspect of your life! I highly recommend Think and Grow Rich for most people who want to experience a reenergized essence in Your Wealth fulfillment! :)~ Michele L. Plunkett

Think and Grow Rich for Women is an incredible update on a classic work, really hitting home on perspectives and challenges women relate to. Sharon Lechter has filled the book with wisdom from a diverse selection of contributors and sources. She not only written a book women will relate to, but has modernized each of the success principles so they can be successfully applied in today's economy and social environment.

I thoroughly enjoyed this book! Sharon Lechter gives various reason why we should feel proud as women today. While remaining committed to Napoleon Hill's original body of work of the 17 principles of success, she infuses them from a woman's POV. She includes real life examples of how modern successful women applied the principles in their lives. Each chapter concludes with an "Ask Yourself" discovery section. The wisdom, tips, and insights shared in the Think and Grow Rich for Women will help to fill in the gaps to your success journey. A must read for any woman who dares to believe that she can be, do, and have more!

I've had the chance to see Sharon Lechter in action and I am also personally familiar with several of the women whose wisdom she includes in this book, which makes it extra compelling. An engaging read with plenty of new wisdom to think about for women at every point in their lives and career.

Sharon Lechter's Think and Grow Rich for Women is a magnificent gift to women worldwide! I am confident that this book will go down in history as a profoundly significant contribution for women in

the 21st century. It is essential reading for all who are interested in building a better world.

Awesome book. This is an Awesome book for women. I got it when she first came out after hearing her on the Billionaire Mentorship Call. I'm now on the Email list and looking forward to attending and having women attend workshops or conferences that Sharon sponsors.
