Customer Reviews

I have been using this set of 3 discs for about 5 weeks and have now ordered levels 2 & 3. The first disc is real basic stuff that gets you started, the second disc has lists of various types of vocabulary, like common nouns, adjectives, adverbs, verbs, and prepositions, and it is really worth going over these time and time again so as to master both the vocabulary and the pronunciation of these basic word lists. At least once you have got the basic vocabulary down, you have something to build on, so it gets easier. Disc three is more phrase oriented, though it should be born in mind that each lesson is designed to illustrate some kind of grammatical rule. For some reason my disc set came with the wrong book (French instead of Spanish) so I have relied totally on the audio, though I do have a basic Spanish book that I refer to occasionally if I can't properly identify the spelling of a word from what I hear. The only beef I do have is that while some of the phrases are obviously very useful, like "donde esta el banco mas cercano?" (where is the nearest bank?), others are not. You can just imagine landing in a Spanish speaking country and the first thing out of your mouth is asking for the nearest ATM or bathroom, but not all of the pattern sentences in the exercises are as useful. It IS hard work learning Spanish this way, but if you do a lot of driving or can take a CD player

with you wherever you are, then it is also incredibly economical with what would probably otherwise be dead time used productively.
