Customer Reviews

This book lacked a lot of Korman's flair. I was disappointed by the book. It was predictable and, in many ways, seemed like a re-hash of his earlier work. I don't know if he is going to continue this series or not, but for me, this is the stopping point.

Awesome book, Gordon Korman is my personal favorite author and this is my 2nd favorite book after masterminds it is adventure filled and unpredictable with several twists and turns great end to the slow starting hypnotist trilogy.

The book was good but highly predictable. It would have been better if it wasn't so. I can't say too much more other than it took about 2 1/2 hours tho read

I LOVED IT... it was very action packed and I liked how there was another powerful person other than the main character... it made the story interesting!!

This book kept me on the hook for two hours. I simply couldn't put it down. It is a very well written book with wonderful analogies.

Curious why the book was not new as stated. ,it is from Denver Public Library and has the library stamp on it.
