ISBN-13: 978-0887249358

Product Dimensions: 8.5 x 0.2 x 10.6 inches

Shipping Weight: 13.6 ounces (View shipping rates and policies)

Average Customer Review: 4.8 out of 5 stars [See all reviews](#) (12 customer reviews)

Best Sellers Rank: #75,400 in Books (See Top 100 in Books) #24 in [Books > Children's Books > Education & Reference > Math > Algebra](#) #205 in [Books > Education & Teaching > Schools & Teaching > Instruction Methods > Mathematics](#) #208 in [Books > Textbooks > Science & Mathematics > Mathematics > Algebra & Trigonometry](#)

Age Range: 11 - 18 years

Grade Level: 6 - 12

Customer Reviews

This is a great book with easy to follow Algebra I/II strategies. This book provides 12 sections of algebraic concepts and drills targeted for students looking to practice, review and assess their algebra skills. There is an answer key in the back of the book to review your answers and measure your results. I recommend this book.

Quickly refreshes your hazy memories and fills in the gaps you never learned. Begins with basic number concepts and quickly has you solving problems. Good for parent who wants to help a struggling student.

I bought this book for my daughter to use between 6th & 7th grade. She was able to read the information and then apply it to some practice exercises. She didn't need much help since it was

very self explanatory.

Great for the homeschooler. It's a short lesson, but for my math whiz it is perfect. It's more of a supplemental source, but it's still a great place to begin working on concepts.

This is a fairly decent book for giving practice in Algebra. However, there are some errors in the answer key.

Excellent resource to use for tutoring young students.
